Green tea is thought that catechins found in green tea may inhibit the enzyme 5-alpha-reductase that converts testosterone into hair-unfriendly DHT. It is therefore believed to be effective in preventing and treating male pattern type baldness.

Try drinking several cups of green tea each day or take it in capsule form as instructed by the manufacturer. While the most popular weight loss diets today are the so-called fad-diets, the more traditional high fiber diet does still have a good following. The high fiber weight loss diet is an easier to follow weight loss system than the more extreme fad diets such as the Atkins diet or South Beach diet. More importantly than that, many dieticians and nutritional consultants favor high fiber diets as they are generally considered to be a safer option that can have a positive effect on health in addition to weight loss.

Impatiens - As the name of the flower implies, this essence addresses a tendency toward impatience; these individuals have difficulty with the flow of time.

Their minds are often far ahead of the present moment, and with this they will deny themselves full immersion in the beauty around them. The individual needing Impatiens may be truly lonely, always being ahead of those subtle human exchanges which bring the richness to our collective human experience. Many find Impatiens to be a relatively fast acting flower essence, feeling more at ease within minutes of essence use.
